NORTH OF CHEMULPO

FORTY JAPANESE TRANSPORTS REPORTED TO BE CARRYING A SECOND ARMY.

DESTINED FOR YONGAMPHO

FIRST THREE DIVISIONS OF THE ARMY TO BE DISEMBARKED AT THAT PLACE.

Seoul, April 7.—An American missionary who has just returned from Northern Korea reports having seen 15 feet of forty transports, some of which were very large, off Haiku, fifty miles north of Chemulpo. It is supposed that the transports are carrying part of the second Japanese army, the first three divisions of which are said to be destined to land at Yongampho.

Newchwang, April 7.—General Kuropatkin has arrived here to inspect the troops and defenses.

Fears are expressed that the Cosacks of General Mistchenko, who were defeated at Chongju, have been surrounded by the Japanese.

RUSSIAN VESSELS ACTIVE.

Makarov's Warships Patrol the Gulf of Pechili.

London, April 7.—The Daily Telegraph's Weihaiwei correspondent, cabling under date of April 6, says Russian warships are patrolling the gulf of Pechili, and that the London Times steamer was stopped and searched thirty miles outside of Port Arthur Wednesday. The Times correspondent, who is cruising in the vicinity of Port Arthur, cabling concerning the hold-up of his vessel by a Russian warship, says it was the armored cruiser Bayan, flying the flag of Vice Admiral Makarov, which chased and entered his steamer. He says the Bayan shows the scars of the damage recently inflicted upon her by the Japanese, but that she is a fine ship and well handled. "In overhauling us," he says, "her officers and crew appeared a little finely drawn, but they nevertheless were of good material."

The correspondent of the Times at Chefoo says the Russians captured two Japanese spies at Newchwang Wednesday who were in possession of the plans of the new fortifications. The Standard's Tientsin correspondent says Paul Lesser, Russian minister to China, has protested to the Chinese government against the presence of Japanese instructors with the Chinese army, which he regards as a violation of neutrality.

Rumors of probable intervention are in Berlin.

SIGHTS THE JAPANESE FLEET.

Russian Battleship Locates Enemy in Kwantung Waters.

Port Arthur, April 7.—The Russian battleship Persevet reports that she sighted the enemy today in Kwantung waters. All is quiet here.

The Associated Press correspondent has had an interview with a high personage closely connected with the emperor of Korea, who left his native land because of the administrative reforms introduced through the influence of the Japanese. Apparently reflecting the views of the emperor, this personage said:

"I saw the Japanese action. It is an attempt to apply to Korea the policy which the British have adopted in India. My country has reason to sympathize with the Russians, knowing the justice of their policy toward the natives of Amur, where many Koreans labor."

RUSSIANS ANXIOUS TO FIGHT.

Soldiers Say They Did Not Go East to Loaf.

Port Arthur, April 7.—The sailors of the fleet who distinguished themselves in the recent Japanese attacks were decorated with the cross of St. George Sunday by Vice Admiral Makarov in the presence of Grand Duke Cyril, cousin of the emperor.

Vice Admiral Makarov's leadership has inspired the men of the fleet with the highest confidence and love.

People arriving from Laoayang report that the troops are impatient to attack the Japanese. The soldiers say they did not come East to lie on their backs, and that it is time to march.

The Novi Kral suggests that necessary measures be taken to prevent those epidemics which are usually the accompaniment of war.

JAPANESE FLEET DIVIDED.

Seven Squadrons Busy Watching the Russians.

London, April 7.—The Daily Telegraph's Seoul correspondent says he learns from a Japanese sailor who participated in the attacks on Port Arthur that the Japanese fleet is divided into seven squadrons. Four of these are watching Port Arthur, the fifth patrols the Korean coast and the sixth and seventh cruise between Vladivostok and North Japan. Two torpedo boats were much damaged in the engagements, but otherwise the fleet was little injured. The damages to the Japanese cruisers Iwate and Yoshino have been repaired and the vessels have rejoined the fleet.

BARON MATSUDURAI TALKS.

Predicts the Capture of Port Arthur by the Japanese.

San Francisco, April 7.—Baron Matsudura, the Japanese ambassador of peers arrived on the steamer Korea Wednesday. With him is H. Yamawaki, secretary of the ministry of agriculture and commerce. The baron is on his way to St. Louis, where he will assume the management of the Japanese exhibit at the world's fair.

"The entrance to Port Arthur is now practically blocked," said the baron, "and Japan will soon be in command of the Russian stronghold. There is room for only one ship to pass out of the harbor at a time.

"The operations at Port Arthur have been rather expensive, but we do not care for that as long as we are successful. The Japanese intend to force the surrender of Port Arthur in a short time by a combined attack of land and sea forces. We then hope to force Russia out of Manchuria, as well as Korea. We have a large force in the latter place, the exact number is a secret and we soon hope to have an equally large force in Manchuria.

"Our cavalry is not the weak point in our army. On the contrary, I consider it equal to that of Russia, and the few engagements which have taken place with the Cossacks show the truth of this statement.

"Thus far Japan has spent \$500,000 on the war."

AROUSES KEEN INTEREST.

Order Removing Restrictions Upon Philippines Squadron.

Washington, April 7.—Keen interest has been aroused in diplomatic circles by the announcement removing restrictions to an extent on the battleship squadron in Philippine waters and it is not unlikely that several members of the diplomatic corps in the course of the next few days will ask the state department if there is any significance in the directions to the Pacific squadron to start the last of the month for Honolulu. It is said that advices indicate a state of unrest in China.

The Philippines squadron was authorized to cruise at the discretion of the commander-in-chief, not going north of Foochow, on the Asiatic coast.

PASSENGER TRAINS STALLED.

Two of Them Held Up by Floods in Montana.

Butte, Mont., April 7.—Trains numbers 1 and 3, westbound on the Northern Pacific, are practically stalled, being tied up at Glendive by floods just west of there, on the Yellowstone river. It is reported that the westbound passenger on the Burlington is tied up east of Glendive by a freight wreck. There were no casualties, but the track will be blocked for hours.

IOWA BANKS SUSPEND

LIABILITIES SAID TO EXCEED ASSETS BY SEVERAL THOUSAND DOLLARS.

Rumors of probable intervention are in Berlin.

COMMISSIONERS AT PANAMA.

Entertained at Luncheon by President Amador.

Panama, April 7.—The members of the United States canal commission received an enthusiastic welcome on their arrival here from Colon Wednesday. They were met at the railroad station by a number of special representatives of the government of the republic. At the palace the meeting between President Amador and the American commissioners was most cordial and the commissioners were entertained at luncheon by the president. After the luncheon the members of the commission went to La Boca, from which point they returned to Colon.

TO PREVENT BLOODSHED.

British Agent Will Make a Settlement With Tibetans.

London, April 7.—Indian Secretary Broderick has received a dispatch dated April 3, from Colonel Young-husband, the political agent with the British expedition to Tibet, in which the colonel says he expects to reach Gyantse, 160 miles from Lhasa, the capital of Tibet, within a week and there meet the Chinese representatives and high Tibetan officials and make a settlement by which further bloodshed will be prevented.

GENERAL CRONJE IN VIRGINIA.

Famous Boer Soldier Arrives at New York News.

Newport News, Va., April 7.—General Cronje and 200 Boers, accompanied by 120 British soldiers who saw service in the Boer war, and 50 women and children and 20 Zulus, Kaffirs and Zambesians, arrived here Wednesday on the steamship Doune Castle from Cape Town. General Cronje awaits the party at St. Louis.

POLYGAMY FORBIDDEN

MORMON PRESIDENT GIVES OUT A PROCLAMATION AGAINST PLURAL MARRIAGES.

ENDORSED BY THE MEMBERS

ANY VIOLATOR OF THE FEDERAL LAW WILL BE BANISHED FROM THE CHURCH.

Salt Lake City, April 7.—The seventy-fourth annual conference of the Mormon church closed during the day. According to the custom of the church, the church leaders, including the first presidents, the apostles and patriarchs, who nominally hold their positions only from conference to conference, were sustained by the raising of hands in the great open meetings of the followers of Joseph Smith.

Wednesday was the seventy-fourth anniversary of the founding of the church, in Fayette, Seneca county, N. Y., and the speakers dwelt on the growth and prosperity of the church which now claims a following of 400,000, with missions in nearly every country in the world. Between 10,000 and 12,000 people attended the conference. A notable feature was this official declaration by President Joseph F. Smith on the subject of polygamy: "Inasmuch as there are numerous reports in circulation that plural marriages have been entered into contrary to the official declaration of President Woodruff of Sept. 26, 1890, commonly called the manifesto, which was issued by President Woodruff and adopted by the church at its general conference, Oct. 6, 1890, which forbids any marriage violative of the law of the land, I, Joseph F. Smith, president of the Church of Jesus Christ of the Latter Day Saints, hereby affirm and declare that no such marriages have been solemnized with the sanction, consent or knowledge of the church, and I hereby announce that all such marriages are prohibited; and if any officer or member of the church shall assume to solemnize or enter into any such marriage he will be liable to be dealt with according to the rules and regulations thereof and excommunicated therefrom."

This statement received the full endorsement of the church members assembled.

ALBERT E. BELL ARRESTED.

Made a Desperate Effort to Evade Officers at Tacoma, Wash.

Tacoma, Wash., April 7.—Albert E. Bell, the alleged mail pouch robber, accused of crimes in many states and who escaped from two United States marshals near Philadelphia last October by jumping from a moving train, was arrested here Wednesday.

He made a daring break for liberty by jumping off a sixty-foot embankment, was recaptured and finally landed safely in jail. When searched a number of letters, all addressed to Portland, Ore., merchants from points along the Seattle and International railroad in this state and British Columbia, were found in his possession, all containing checks or money orders.

When closely questioned Bell said that he and his companion had stolen a mail pouch from a truck in front of the Seattle depot last Sunday morning and had secured \$1,700 in checks and money orders, \$700 of which they had converted into cash.

RESULT STILL IN DOUBT.

Both Sides Claim Victory in Wisconsin Judicial Contest.

Milwaukee, April 7.—Returns from the state, though still incomplete, only forty out of seventy counties having reported, indicate that L. K. Luse has been elected justice of the supreme court by from 4,000 to 5,000 majority.

Additional returns on the judicial election make the result more doubtful than ever. Kerwin has made several gains and the opinion prevails that an official count will be necessary to determine the result. Kerwin's managers at Madison claim the election of their candidate by 2,300 majority, and Luse's managers still claim his election by between 4,000 and 5,000 majority.

Wisconsin Man Drowned.

Grand Rapids, Wis., April 7.—A. W. Ramsey, superintendent of the Pioneer Wood Pulp company, was drowned in the presence of his workmen at the dam last night and his body was carried under the ice. He was the son-in-law of George E. Hoskinson and manager of the Hoskinson estate and was thirty-five years old.

McCall Committee Meets.

Washington, April 7.—The McCall investigating committee met Wednesday for the first time this week and continued work on its final report, which is to be finished this week. Only one person, Mr. Dodge, testified, and no further testimony is to be taken by the committee.

Indiana Prohibitionists.

Indianapolis, April 7.—The Prohibitionists of Indiana Wednesday nominated Felix T. McWhirter of this city for governor and elected delegates and alternates to the national convention.

The convention took no action regarding a nominee for president.

JUDGE COLLINS' ASSUMPTION.

The assumption by Judge Collins that he is the only gubernatorial candidate who would obey the dictates of the republican party as expressed in the platform, if nominated, and the only candidate who would enforce the laws, if elected, is certainly a flattering self-in-dorsement. But the judge is one of the shrewdest politicians in the state and his rivals may as well recognize that fact now as later. If the records of Congressman Eddy and Mr. Dunn allow the conclusion that they are not men of integrity, then Judge Collins ought to be nominated by acclamation and the opportunity to secure the only trustworthy public servant should not be trifled with. Unfortunately for any such unanimity there are some cautious individuals who when their attention is called to the fierce desire of Judge Collins to fight a battle that is already over, refer to the charge that while he is now using the supposed prejudice against the railroads as his campaign ammunition, in 1894 he sought their assistance in his contest with Judge Willis, who was nominated by the populist and democratic conventions. Certain it is that in that campaign the judge made no flings at the railroads.

But there are other critical republicans who drag up the charge that after the death of Senator Davis Judge Col-

lins agreed to accept the appointment as senator for the few weeks before the legislature met at the hands of Gov. Lind. It may be possible that the judge did not recognize that such acceptance would split the Republican party in Minnesota. The general opinion, however, was that Gov. Lind knew that both senators could not come from the northern part of the state; that the populists and democrats in the legislature would, under Lind's influence cast their votes for Collins for the four years remaining and with the latter's republican adherents be enough to elect him. Then Senator Nelson, in his turn, would have a fight for existence. It is not to be believed for an instant that Senator Nelson's friends would have allowed such a program to be carried out without a desperate struggle, but fortunately this cunning democratic plan to split the republican party was realized by some leaders who nipped it in the beginning, and a protracted factional war was averted.

The Pioneer Press has no desire to criticise any man's ambitions. In the game of politics any legitimate move is allowable. Judge Collins has a perfect right to aspire to be governor, he has an equally good right to fan the embers of prejudice if he thinks it will warm his cause. But with equal astuteness the people of the state have a right, when he intimates that he alone would be a trustworthy governor, to consider incidents in the past that throw light upon his claims and his consistency.—Pioneer Press.

The attention of Bro. Gann, of the Backus News, Pillager Post and Pine River Sentinel, is called to the fact that his friend, John King, of Walker, chairman of the late Cass county republican convention and county commissioner, has announced his candidacy for the position of railroad and warehouse commissioner. It is not expected that the Pine River Sentinel will support the Walker statesman in his ambition, judging from the article on "King's Graft" in the last issue.

THE Walker Pilot thinks that town should get the Cross Lake line instead of Brainerd and says that while the Brainerd people are making a strong effort that would be detrimental to Walker there are very good prospects that the northern line will be chosen and logging headquarters established in that village.

The Collins people are making a strong effort to get their supposed workers to hustling in different parts of the state. This campaign of wind which they have been putting up doesn't seem to do the business.

Towne, of Minneapolis, acknowledging the receipt of a letter accepting from him on behalf of the library, the donation of the American Railway Master Mechanic's association annual reports. They have arrived and will be placed in the library and it is thought they will be of much value to those interested in such books. The donation was a very liberal one and will be greatly appreciated.

Last night J. C. Smallwood was again the guest of honor of a very happy throng that gathered at his home on the north side. They were members of the local order of Odd Fellows and during the evening they presented Mr. Smallwood with a beautiful gold ring and an Odd Fellow charm. The event was one of the most auspicious of the kind that has been chronicled in Brainerd for some time. Mr. Smallwood will go to Montana with the best wishes of all his Odd Fellow brothers and a letter has been written to the lodge at Havre, Mont., commanding the gentleman for his worth as a citizen and lodge member.

COINCIDENCE

White Brothers Awarded Contract for Koop Building, Built Old One 23 Years Ago

WERE THEN VERY YOUNG MEN

Old Frame Structure Was Built in 1880 for the Firm of Linne- man & Koop

There is a significant and a very interesting coincidence in connection with the awarding of the contract for the new Koop block to White Bros., and it speaks well for this well known firm if there is any truth to the old verse from Holy Writ, "By their fruits ye shall know them."

The old frame building which burned a few weeks ago, and which is now about to be replaced by a modern brick building had been a veritable landmark in Brainerd and could its walls but speak they would unfold in striking detail the history of this city from its inception.

The building was erected in 1880 and the men who did the work at that time, twenty-three years ago, were White brothers, I. U. and Charles B. At that time they were both young men, I. U. White being 27 years of age and his brother, Charles, 6 years younger, or 21 years of age. The old building withstood many a winter blast, and while it has remained in control of the same family and their descendants since then, there have been changes wrought and several different firms have occupied the building since. It was one of the first buildings put up in Brainerd of any pretensions and at that time was thought to be a dandy. It was built for the firm of Linneman & Koop.

In speaking about the matter this morning I. U. White said: "I can remember very well that it was early in October and we had a big gang of men at work on the building trying to rush it through. A storm came, the equal of which I have never seen and we had to call off the work. The snow was several feet deep. Charles was but a mere lad."

Mr. and Mrs. Hense, of Aitkin, returned from a visit in St. Paul this afternoon.

Mrs. Marr, who has been visiting in the city for a short time, returned to her home in Grand Rapids this afternoon.

Mrs. Annie M. Welch of Minneapolis, state president of the L. O. T. M., arrived in the city this afternoon and will meet with the ladies this evening and a large class will be initiated.

Lind knew that both senators could not come from the northern part of the state; that the populists and democrats in the legislature would, under Lind's influence cast their votes for Collins for the four years remaining and with the latter's republican adherents be enough to elect him. Then Senator Nelson, in his turn, would have a fight for existence. It is not to be believed for an instant that Senator Nelson's friends would have allowed such a program to be carried out without a desperate struggle, but fortunately this cunning democratic plan to split the republican party was realized by some leaders who nipped it in the beginning, and a protracted factional war was averted.

The Pioneer Press has no desire to criticise any man's ambitions. In the game of politics any legitimate move is allowable. Judge Collins has a perfect right to aspire to be governor, he has an equally good right to fan the embers of prejudice if he thinks it will warm his cause. But with equal astuteness the people of the state have a right, when he intimates that he alone would be a trustworthy governor, to consider incidents in the past that throw light upon his claims and his consistency.—Pioneer Press.

THE attention of Bro. Gann, of the Backus News, Pillager Post and Pine River Sentinel, is called to the fact that his friend, John King, of Walker, chairman of the late Cass county republican convention and county commissioner, has announced his candidacy for the position of railroad and warehouse commissioner. It is not expected that the Pine River Sentinel will support the Walker statesman in his ambition, judging from the article on "King's Graft" in the last issue.

THE Walker Pilot thinks that town should get the Cross Lake line instead of Brainerd and says that while the Brainerd people are making a strong effort that would be detrimental to Walker there are very good prospects that the northern line will be chosen and logging headquarters established in that village.

THE Collins people are making a strong effort to get their supposed workers to hustling in different parts of the state. This campaign of wind which they have been putting up doesn't seem to do the business.

White Brothers Awarded Contract for Koop Building, Built Old One 23 Years Ago

WERE THEN VERY YOUNG MEN

Old Frame Structure Was Built in 1880 for the Firm of Linne- man & Koop

There is a significant and a very interesting coincidence in connection with the awarding of the contract for the new Koop block to White Bros., and it speaks well for this well known firm if there is any truth to the old verse from Holy Writ, "By their fruits ye shall know them."

The old frame building which burned a few weeks ago, and which is now about to be replaced by a modern brick building had been a veritable landmark in Brainerd and could its walls but speak they would unfold in striking detail the history of this city from its inception.

The building was erected in 1880 and the men who did the work at that time, twenty-three years ago, were White brothers, I. U. and Charles B. At that time they were both young men, I. U. White being 27 years of age and his brother, Charles, 6 years younger, or 21 years of age. The old building withstood many a winter blast, and while it has remained in control of the same family and their descendants since then, there have been changes wrought and several different firms have occupied the building since. It was one of the first buildings put up in Brainerd of any pretensions and at that time was thought to be a dandy. It was built for the firm of Linneman & Koop.

In speaking about the matter this morning I. U. White said: "I can remember very well that it was early in October and we had a big gang of men at work on the building trying to rush it through. A storm came, the equal of which I have never seen and we had to call off the work. The snow was several feet deep. Charles was but a mere lad."

Mr. and Mrs. Hense, of Aitkin, returned from a visit in St. Paul this afternoon.

Mrs. Marr, who has been visiting in the city for a short time, returned to her home in Grand Rapids this afternoon.

Mrs. Annie M. Welch of Minneapolis, state president of the L. O. T. M., arrived in the city this afternoon and will meet with the ladies this evening and a large class will be initiated.

CATASTROPHE ON THE CROW WING

Bridges at Crow Wing, Sylvan and Other Places Go Out—Also Big Bridge at Fort Ripley

WATER RAISES VERY RAPIDLY

Gorges of Ice Said to Have Formed on Upper Crow Wing Broke Loose this Morning.

One of the most disastrous catastrophes for some time on the rivers in this vicinity occurred this morning about 9 o'clock, when the largest bridges in Morrison county on the Crow Wing and Mississippi rivers went out as a result of a sudden and unprecedented rise of water.

The news was brought to this city this afternoon by W. H. Leach, who has charge of the construction of the new bridge across the Crow Wing river at Pillager. The bridge was completed only a few days ago and the commissioners of Morrison county were about ready to accept it. Mr. Leach states that at about 7 o'clock this morning large quantities of ice in massive gorges came down the river and struck the pilings of the Pillager bridge with a force that sounded like an earthquake. The bridge did not go out then, but the force of the ice coming against the pilings must have been disastrous for when the water commenced to rise at about 9 o'clock with unusual rapidity the bridge went out slick and clean, leaving nothing but the approaches. Mr. Leach hitched up a team and started down the river after the lumber, but it went so fast he could not keep up with it and so he returned to Pillager and went to Little Falls this afternoon where it is expected that most of the lumber will be caught in the boom.

This structure was a three span bridge and was 283 feet long and was one of the best bridges in the northern part of the state, costing approximately \$5000.

And this was not all the damage. The ice and water is said to have also washed out the Sylvan bridge across the Crow Wing. This is a 140 foot bridge and was also a costly structure. It is also reported that what is known as the Staples bridge near Motley, went out.

Another large bridge which cost \$5000 also went out. This one was located at Ft. Ripley and was almost completed. A part of the material in this bridge was hauled to Ft. Ripley from Little Falls, the old wagon bridge there being replaced by new bridge. This bridge is across the Mississippi and the water commenced to rise here at about 9 o'clock and the ice that came down in such large quantities helped to do the work. The structure was completely washed away. This was a 384 foot, two span bridge.

The commissioners of Morrison county, who had been out to Sylvan to inspect the bridge there returned to Little Falls on No. 6 this afternoon and were very much disheartened over the course of affairs. They stated that there was not much doubt but that the Royalton bridge would go out too. The gentlemen who composed the party were: Commissioners J. J. Gross, of Little Falls, E. W. Sullivan, of Parktown and C. H. Stith, of Swanville. They hurried back to Little Falls as soon as they heard of the disaster and will try to do all they can to save the material that was in the bridges.

The river at this point is at its normal stage at this time of the year and it is not anticipated that there will be any trouble in this county. Mr. Leach stated that the water at Pillager raised 3 feet in forty-five minutes this morning and that it was still on the rise.

The Sylvan bridge is the one in which Brainerd business men were interested a short time ago and contributed liberally towards its construction. The bridge cost \$2000 and part was paid by Morrison county and part by Crow Wing county.

TOOK POLICEMAN WITH HIM

Rather Odd Experience of H. G. West, Who Came Here A Few Months ago From North Dakota

It is not very often that a man, no matter what predicament he might get into, has any trouble in getting at his wife so that they can talk their troubles over, but such was the experience of H. G. West who came to this city several months ago from North Dakota accompanied by his wife.

When Mr. and Mrs. West came to Brainerd they secured rooms at the boarding house of William Geminder on Tenth street south and they have continuously lived there since. Mr. West expected some money last week from North Dakota but it did not come and he was forced to ask Mr. Geminder to wait a few days for his pay for the rooms.

Patience ceased to be a virtue with Mr. Geminder and night before last he went up to Mr. and Mrs. West's room while they were both there and ordered West to get out of the house at once. West said he obeyed and was glad to go under the threats made, but as for Mrs. West Geminder detained her and is said to have locked her in the room, presumably until Mr. West could get the money to "raise the embargo." At any rate Mr. West took a dray and with the assistance of Officer Derocher started south yesterday afternoon and bombarded Fort Geminder and succeeded in driving the enemy back and capturing Mrs. West. Mr. and Mrs. West are now safely domiciled in another room and Mr. Geminder will commence process at once to collect.

Mr. and Mrs. West are said to be very nice people and it is thought that Geminder had no cause to worry. West was badly hurt in an accident last fall and is a half cripple as a result, but he says he expects some money from North Dakota in a few days.

"CHESTY" FOR COACH

Macalester College Negotiating for Services of Eugene Cox to Coach College Base Ball Team.

The Macalester college base ball management is endeavoring to secure the services of Eugene, better known as "Chesty" Cox, to coach the college team this spring. Cox will be in St. Paul for some time, as he has not decided which of several offers he will accept. His experience in fast company will prove of invaluable assistance to the collegians, and if they secure him, the Macalester team should take a much higher place in the intercollegiate race than it has hitherto.—St. Paul Dispatch.

Submitted.

With reference to the bids on the sewer for the Second ward and the manner in which the same were received and contract let, it seems strange that anybody should make the slightest objection to the awarding of the contract last Monday evening. The facts are, it was the lowest bid in, there was no collusion or fraud, this particular bid was all the way from eleven hundred to two thousand dollars lower than the other bids, nobody has been hurt or prejudiced, and the city is saving at least eleven hundred dollars. Why not let the contract to these people stand? Of course, we would all much rather see some of our own people get the contract, but that is not the question involved. The question is this, shall we take advantage of some little technicality in the law and throw this bid and all other bids out and go on again with the advertising and letting? It is undeniable that the statute was not in all respects strictly complied with by any of the bidders. Not one of them was in due form of law. But is it not always so? And because certain and unimportant conditions of the law have not been so complied with, will any taxpayer in this city raise the question and drive the council to do it all over again? It really makes no difference with the city. The city can't be damaged, because it is taking no chances. If he is willing to enter into the contract to construct the sewer under a mistake in the manner of bidding, the city need not worry. If nobody makes objection, the work will be done and paid for, and the city will have saved over one thousand dollars. If anybody wishes to test it, let him do so at his own cost and take the chances. All he can possibly accomplish, if he succeeds, is to knock out the lowest bid and force the council to advertise over again. Does anybody care to do this? I am aware that the courts require that the statute or charter be complied with, but how strictly I cannot say.

Yours,
W. A. FLEMING.

SOME CATTLE ARE INFECTED

Dr. S. H. Ward, Executive Agent of State Veterinary Board, Spent Some Time Here

INSPECTION NEAR MERRIFIELD

L. A. Snell Lost 29 Head This Winter and he Wrote to State Board Regarding Matter

Dr. S. H. Ward, executive agent for the state veterinary board, formerly of St. Cloud and well known in this city as a prince of good fellows, was in the city yesterday on official business and returned to St. Paul last night.

Dr. Ward was called here to investigate the report sent in by L. A. Snell, near Merrifield, that cattle in the vicinity are infected with some disease. He arrived yesterday afternoon and immediately proceeded to the Snell farm. The doctor learned that Mr. Snell had lost 29 head of cattle this winter. They commenced dying about March 6 and since that time they have been dropping off one by one at intervals. Dr. Ward investigated the matter thoroughly and found that the cattle were infected with what is known as hemorrhagic septicemia and he furnished Mr. Snell with what information was necessary in the care of the balance of his herds, although it is not probable that others will die. The disease is not exactly contagious but it is infectious and sometimes takes hundreds of cattle in the same community. Dr. Ward said, "the winter has been a very hard one on cattle and the scarcity of feed has been one detriment. When cattle are poor and do not have all the good wholesome food that is necessary they are more susceptible to disease. This really in the abstract was the cause of this case at Merrifield. I have had very little complaint from this section of the state, and this case is not of a serious nature."

BLANCHARD MAY GO UP

Rumor Has It That He Will Succeed Newman Kline as Assistant General Superintendent of the Northern Pacific

The Northern Pacific railroad atmosphere continues to be heavily charged with rumors of official changes, says the Duluth Herald. The latest one to reach Duluth from St. Paul is of decided local interest. It is to the effect that Newman Kline, assistant general superintendent, is to resign and that he is to be succeeded by E. C. Blanchard of Duluth, superintendent of the Lake Superior division of the road. It is also said that Frederick W. Wilsey is to succeed Mr. Blanchard.

No confirmation of the reports can be had at this time, and denials in such cases are not always considered reliable. Mr. Wilsey was a former superintendent of the Lake Superior division. Mr. Blanchard succeeded him in that capacity when the former was appointed assistant land commissioner of the Northern Pacific six years ago. He has not been with the road for some time as the company disposed of most of its lands in large tracts to companies which are now retailing them out to smaller companies and individuals.

Another rumor is to the effect that V. L. Bean, at present assistant superintendent of the Superior division and in charge of the union depot at Duluth, will succeed Mr. Blanchard, and Trainmaster McMullin of the Superior division will succeed Mr. Bean.

Those who wish to help out in sending Miss Stade to St. Louis can secure the proper blanks of her at the Moberg store. Everybody who takes the Journal their votes will be thankfully received.

It will be something very novel in the way of a minstrel performance and there is little doubt but that the house will be packed on that night. The management has secured the services of Miss Louise McLain, of the Ferris Stock company, of Minneapolis, who will spend two weeks in the city previous to the performance and she will take charge of the entire performance, putting on the finishing touches.

PLAN FOR GRANDELMYER BLOCK

Have Been Completed by Architect I. U. White—Provide for a Building to Cost Nearly \$10,000.

Architect I. U. White this morning completed the plans for the proposed new Grandelmyer building to take the place of the frame building burned recently. The plans call for a two story solid brick block and the dimensions will be 25 x 130 feet. It will be two stories for 100 feet back. There will be a full basement underneath the building, the front end to be fitted up for rental. The store part will be one of the handsomest in the city and the upstairs will be used by Miss Grandelmyer for living rooms. The front will be of grey brick and will be a very attractive one. Bids will be called for soon.

LET US HELP YOU TO HEALTH

H. P. Dunn & Co. Want Every Catarrh Sufferer to Use Hyomei and Be Cured.

Statistics show that at least 97 out of every 100 persons in this state suffer from catarrh in some form.

While the disease is one of the most common, it is also one of the most dangerous and offensive, leading to consumption and other diseases of the respiratory organs.

Prior to discovery of Hyomei and its introduction in this section by H. P. Dunn & Co., every method of treatment had been found worthless.

The discovery of Hyomei and its growing popularity has already reduced the percentage of those suffering from catarrh. This wonderful remedy is the simplest and most pleasant of treatments. Put 20 drops of Hyomei in the pocket inhaler that comes with every outfit, and breathe it for a few minutes four times a day. Relief will be seen after the first treatment and a complete cure will soon follow. Breathe the Hyomei in this way, and the catarrhal germs even in the most remote aid cells are destroyed. The irritated mucous membrane is soothed and healed, and perfect health restored.

H. P. Dunn & Co. say to all catarrh sufferers, "Let us help you to health, we are confident Hyomei will cure, so confident, in fact, that we guarantee to refund your money if it fails. A complete outfit costs but \$1, and if it does not help you, your money will be refunded promptly."

This bridge is across the Mississippi and the water commenced to rise here at about 9 o'clock and the ice that came down in such large quantities helped to do the work. The structure was completely washed away. This was a 384 foot, two span bridge.

The commissioners of Morrison county, who had been out to Sylvan to inspect the bridge there returned to Little Falls on No. 6 this afternoon and were very much disheartened over the turn of affairs. They stated that there was not much doubt but that the Royalton bridge would go out too. The gentlemen who composed the party were: Commissioners J. J. Gross, of Little Falls, E. W. Sullivan, of Parktown and C. H. Stith, of Swanville. They hurried back to Little Falls as soon as they heard of the disaster and will try to do all they can to save the material that was in the bridges.

The river at this point is at its normal stage at this time of the year and it is not anticipated that there will be any trouble in this county. Mr. Leach stated that the water at Pillager raised 3 feet in forty-five minutes this morning and that it was still on the rise.

The Sylvan bridge is the one in which Brainerd business men were interested a short time ago and contributed liberally towards its construction. The bridge cost \$2000 and part was paid by Morrison county and part by Crow Wing county.

TOOK POLICEMAN WITH HIM

Rather Odd Experience of H. G. West, Who Came Here A Few Months ago From North Dakota

It is not very often that a man, no matter what predicament he might get into, has any trouble in getting at his wife so that they can talk their troubles over, but such was the experience of H. G. West who came to this city several months ago from North Dakota accompanied by his wife.

When Mr. and Mrs. West came to Brainerd they secured rooms at the boarding house of William Geminder on Tenth street south and they have continuously lived there since. Mr. West expected some money last week from North Dakota but it did not come and he was forced to ask Mr. Geminder to wait a few days for his pay for the room.

Patience ceased to be a virtue with Mr. Geminder and night before last he went up to Mr. and Mrs. West's room while they were both there and ordered West to get out of the house at once. West said he obeyed and was glad to go under the threats made, but as for Mrs. West, Geminder detained her and is said to have locked her in the room, presumably until Mr. West could get the money to "raise the embargo." At any rate Mr. West took a dray and with the assistance of Officer Derocher started south yesterday afternoon and bombarded Fort Geminder and succeeded in driving the enemy back and capturing Mrs. West. Mr. and Mrs. West are now safely domiciled in another room and Mr. Geminder will commence process at once to collect.

Mr. and Mrs. West are said to be very nice people and it is thought that Geminder had no cause to worry. West was badly hurt in an accident last fall and is a half cripple as a result, but he expects some money from North Dakota in a few days.

"CHESTY" FOR COACH

Macalester College Negotiating for Services of Eugene Cox to Coach College Base Ball Team.

The Macalester college base ball management is endeavoring to secure the services of Eugene, better known as "Chesty" Cox, to coach the college team this spring. Cox will be in St. Paul for some time, as he has not decided which of several offers he will accept. His experience in fast company will prove of invaluable assistance to the collegians, and if they secure him, the Macalester team should take a much higher place in the intercollegiate race than it has hitherto.—St. Paul Dispatch.

Submitted.

With reference to the bids on the sewer for the Second ward and the manner in which the same were received and contract let, it seems strange that anybody should make the slightest objection to the awarding of the contract last Monday evening. The facts are, it was the lowest bid in, there was no collusion or fraud, this particular bid was all the way from eleven hundred to two thousand dollars lower than the other bids, nobody has been hurt or prejudiced, and the city is saving at least eleven hundred dollars. Why not let the contract to these people stand? Of course, we would all much rather see some of our own people get the contract, and if they secure him, the Macalester team should take a much higher place in the intercollegiate race than it has hitherto.—St. Paul Dispatch.

No confirmation of the reports can be had at this time, and denials in such cases are not always considered reliable. Mr. Wilsey was a former superintendent of the Lake Superior division. Mr. Blanchard succeeded him in that capacity when the former was appointed assistant land commissioner of the Northern Pacific six years ago. He has not been with the road for some time as the company disposed of most of its lands in large tracts to companies which are now retailing them out to smaller companies and individuals.

Another rumor is to the effect that V. L. Bean, at present assistant superintendent of the Superior division and in charge of the union depot at Duluth, will succeed Mr. Blanchard, and Train master McMullin of the Superior division will succeed Mr. Bean.

Those who wish to help out in sending Miss Stade to St. Louis can secure the proper blanks of her at the Moborg store. Everybody who takes the Journal their votes will be thankfully received.

THE LADY MINSTRELS.
Brainerd people are looking forward with considerable interest to the minstrel performance to be put on by the Bachelor Maids the last of this month at the Brainerd opera house. It will be something very novel in the way of a minstrel performance and there is little doubt but that the house will be packed on that night. The management has secured the services of Miss Louise McLain, of the Ferris Stock company, of Minneapolis, who will spend two weeks in the city previous to the performance and she will take charge of the entire performance, putting on the finishing touches.

PLAN FOR GRANDELMYER BLOCK

Have Been Completed by Architect I. U. White—Provide for a Building to Cost Nearly \$10,000.

Architect I. U. White this morning completed the plans for the proposed new Grandelmyer building to take the place of the frame building burned recently. The plans call for a two story solid brick block and the dimensions will be 25 x 130 feet. It will be two stories for 100 feet back. There will be a full basement underneath the building, the front end to be fitted up for rental. The store part will be one of the handsomest in the city and the upstairs will be used by Mme. Grandelmyer for living rooms. The front will be of grey brick and will be a very attractive one. Bids will be called for soon.

LET US HELP YOU TO HEALTH!

H. P. Dunn & Co. Want Every Catarrh Sufferer to Use Hyomei and Be Cured.

Statistics show that at least 97 out of every 100 persons in this state suffer from catarrh in some form.

While the disease is one of the most common, it is also one of the most dangerous and offensive, leading to consumption and other diseases of the respiratory organs.

Prior to discovery of Hyomei and its introduction in this section by H. P. Dunn & Co., every method of treatment had been found worthless.

The discovery of Hyomei and its growing popularity has already reduced the percentage of those suffering from catarrh. This wonderful remedy is the simplest and most pleasant of treatments. Put 20 drops of Hyomei in the pocket inhaler that comes with every outfit, and breathe it for a few minutes four times a day. Relief will be seen after the first treatment and a complete cure will soon follow. Breathe the Hyomei in this way, and the catarrhal germs even in the most remote aid cells are destroyed. The irritated mucous membrane is soothed and healed, and perfect health restored.

H. P. Dunn & Co. say to all catarrh sufferers, "Let us help you to health, we are confident Hyomei will cure, so confident, in fact, that we guarantee to refund your money if it fails. A complete outfit costs but \$1, and if it does not help you, your money will be refunded promptly."

STOCKHOLDER PETITIONS A
NEW JERSEY COURT

OBJECTS TO REDUCTION PLAN

ASKS THE COURT TO COMPEL RE-
TURN OF THE STOCK TO ITS
ORIGINAL HOLDERS.

New York, April 7.—Vice Chancellor Bergen signed an order in Jersey City during the day to show cause why an injunction should not issue to restrain the Northern Securities company from holding a stockholders' meeting on April 21; from distributing any stock of the Northern Pacific Railway company and the Great Northern Railway company and from taking any action in regard to the reduction of its capital stock.

The bill for the injunction was asked for by the Continental Securities company, which asked the court of chancery to compel the Northern Securities company to return to the original stockholders of the Northern Pacific railway and of the Great Northern railway company the stocks formerly held by them upon the same terms under which the stock of the two companies was acquired by the Northern Securities company.

The complainant company held stock in the Northern Securities company. Arguments will be heard next Monday in Jersey City.

Leaves Them No Jurisdiction.

According to the bill the complainant understands that at the meeting on April 21, the stockholders will be called on to recommend to the directors that 99 per cent of outstanding shares of the Northern Securities company be called in for surrender and cancellation; that the capital stock be reduced from \$3,954,000 to \$29,510 and that for each share surrendered \$29.77 of stock of the Northern Pacific and \$30.17 of stock of the Great Northern be delivered.

The bill says that the complainant does not know anything about the balance of the assets of the Northern Securities, after deducting for the distribution of the stock as to whether the assets are worth \$3,097,000 as alleged, or anything at all and that the paucity of details concerning the proposed recommendation leaves no jurisdiction to the complainants, whether they shall remain in the Northern Securities company or not.

Officials of the Northern Securities company said they know little of the suit, but that their representative in Hoboken had been served with the injunction papers.

"We will meet the complaint with the statement that the Northern Securities plan is perfectly just and legal," said a representatives of the Securities company.

Governor Toole of Montana Ignorant
of Alleged Merger Suit.

Helena, Mont., April 7.—A dispatch from St. Paul concerning the alleged probable action of the Great Northern to invoke the laws on Montana to prevent the securing of control of the Northern Pacific interests by Harriman through the Oregon Short Line was called to the attention of Governor J. K. Toole. The governor declared he had no knowledge of the plans of the attorney general in regard to this matter nor was he familiar with the points involved in the proposed step.

The officers of the attorney general's office also declare themselves ignorant of the plans of the attorney general.

AN OUTER BELT LINE.

Will Soon Be Constructed Around
Chicago.

Chicago, April 7.—Through an increase in the capital stock of the Illinois, Iowa and Minnesota Railroad company from \$100,000 to \$5,900,000, made Wednesday at Springfield, was disclosed the project for constructing an outer belt railroad for Chicago. The new road will make a half circle about the city, passing through Rockford, Joliet, Dekalb, Peotone, Momence, Valparaiso and Michigan City, and will, eventually, be extended to Beloit, Janesville and other towns in Wisconsin, tapping all of the important trunk lines entering Chicago.

Trains will be in operation over the main line between Momence and Rockford by July 1. The purpose of the company is to construct a belt line adapted to the handling of freight from all trunk lines and transferring and delivering it without bringing it into Chicago.
